

Topic tracking evaluation

Your mission if you accept it is to help me evaluate some results.

The goal of the research is to track topics (groups of co-occurring words) accros time.
To test our method, you will be asked to choose which two group of words are most related.

Don't worry about being correct, there is no right answer.

After each question, you will be asked to assess your confidence level.

For more information contact me at judicael.poumay@uliege.be
